

WHAT IS THE 3DEXPERIENCE PLATFORM?

Collaborative 3D solutions for SOLIDWORKS customers

DESIGN, SIMULATE, MANUFACTURE AND MANAGE ON THE 3DEXPERIENCE PLATFORM

The 3DEXPERIENCE platform provides a simple, unified environment for a portfolio of solutions that strengthens the SOLIDWORKS you know and love.

- ✓ **Anytime Collaboration:** Enabling CAD engineering professionals to manage, share and collaborate on any device, any time, anywhere.
- ✓ **On Premise or Cloud Solutions:** Extend your capabilities and solve new problems faster by connecting to product development applications on Cloud.
- ✓ **Model-Based Definition:** Work from a single source of truth with a seamless portfolio of solutions to develop real world value from your product vision.
- ✓ **Additional Applications:** Harness the powerful capability of the 3DEXPERIENCE platform applications to expand your business.
- ✓ **Share Product Data:** Seamlessly transfer product data between all applications providing the user with one common interface.

APPLICATIONS TO CONNECT THE WHOLE BUSINESS, ON ONE PLATFORM

DESIGN

Intuitive 3D design to conceptualise, create, validate, manage, and transform your innovative ideas into great product designs.

SIMULATE

Conduct structural static, frequency, buckling, modal dynamic response, and structural-thermal analysis of parts and assemblies.

PLAN

Plan, develop and release your products seamlessly, helping you to improve productivity, collaboration and innovation.

MANUFACTURE

Collect real-time data from engineering to shipping, all in one place, ensuring the right components are available at the right time.

LET'S WORK TOGETHER

TECHNIA PAVES THE WAY FOR YOUR INNOVATION, CREATIVITY AND PROFITABILITY.

Bring digitalisation to your entire organisation with TECHNIA as your one key, strategic partner.

Data and processes are unique and crucial to every business. We've learned this through experience.

By working with a wide variety of organisations to integrate complex and disparate systems, we've learned how to keep things simple, personal and accessible.

You can count on our team of over 680 experts across 32 locations to turn your business challenges into new opportunities.

WORK WITH A TEAM OF DEDICATED SPECIALISTS

SIMULATION CENTRE OF EXCELLENCE

FEA, non-linear, and advanced simulation software, training and consultancy.

DESIGN CENTRE OF EXCELLENCE

Top-tier turnkey solutions and engineering design consultancy.

MANUFACTURING CENTRE OF EXCELLENCE

A combination of traditional manufacturing consulting mixed with an entrepreneurial nature.
